HIGH GRADE FIBERGLASS

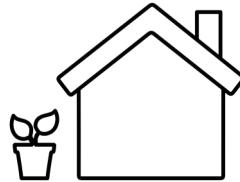

The high-quality fiberglass used in our products is a composite material that delivers exceptional performance and durability in all weather conditions. By combining premium-grade polyester resin with glass fibers, we create a material that rivals traditional options like stone in strength and reliability, while being significantly lighter. This excellent strength-to-weight ratio allows our artisans to craft innovative designs in a wide range of shapes and sizes, making them easy to lift, carry, and install. With resistance to UV rays, frost, and various other weather challenges, high-quality fiberglass is perfectly suited for outdoor use in any environment, whether it's a sunny rooftop in Rajasthan or a winter balcony in Kashmir.

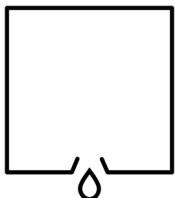

INDOOR-READY

Ideal for enhancing spaces like offices or hotel lobbies, our planters are designed for indoor use without causing floor damage or water leakage.

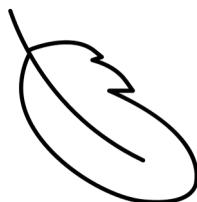

OUTDOOR-READY

Crafted with weather-resistant finishes and robust builds, our planters endure outdoor conditions for years without compromising quality.

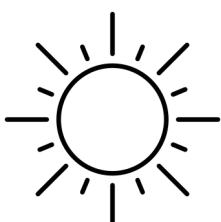

DRAINAGE

Our planters offer flexibility with optional or self-drilled drainage holes, making them perfect for both indoor and outdoor settings.

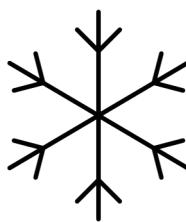

LIGHTWEIGHT

Designed with ease of use in mind, most of our planters are lightweight enough to be carried and installed single-handedly, wherever needed.

UV-RESISTANCE

Our planters are carefully finished with UV-resistant automotive paint, ensuring long-lasting protection against prolonged exposure to intense sunlight.

FROST-RESISTANCE

Fiberglass products naturally resist frost, thanks to their inherent elasticity, allowing them to expand and contract effortlessly during chilly winter months.

DURABLE LIGHTWEIGHT HANDCRAFTED

The combination of flexibility and strength in fiberglass enables the creation of advanced, automotive, and intricate commercial structures. Our distinctive designs are built to endure for years with proper care, ensuring the plants they hold thrive. Backed by extensive expertise in industrial design, each product is meticulously crafted for exceptional quality, capable of withstanding harsh weather conditions without losing its durability or aesthetic appeal.

Lustro

Our **Lustro** range features a flawlessly smooth surface, meticulously hand-finished to the highest standards. Available in a variety of sophisticated colors, this finish brings a modern touch of refined elegance to any setting, enhancing both style and atmosphere.

Cemento

Our **Cemento** range captures the essence of cement with its subtly textured surface and natural pores, creating a distinct and striking visual appeal. Offered in a palette of earthy tones, this finish seamlessly merges traditional and modern aesthetics, delivering the timeless charm of concrete without the added weight.

RECTANGULAR PLANTERS

LC

Rectangular planters serve as versatile solutions for dividing indoor and outdoor spaces, seamlessly enhancing privacy and defining distinct areas. Whether utilized on a patio, balcony, or within a commercial space, their sleek design adds aesthetic appeal while effectively creating barriers. With the flexibility to butt them up against each other, these planters effortlessly transform long spaces into private retreats. Plus, with our wide range of sizes available, there's a perfect fit for every need.
